

Instructions - Play this traditional game with all of your friends from LazyTown!

Put the 54 cards face downward on the table. Shuffle the cards well so nobody knows where a certain card is. The youngest player begins. He/she turns over two cards. If they are the same, for example two bananas, he may keep the set and have another turn. If the cards are not the same, they are turned over again. Make sure that every player has clearly seen the picture on the cards. The game is over, when all sets of two cards have been found. Whoever holds most cards, is the winner.

Contents: 54 cards (27 pairs).

Have fun!
