

## MIX IT UP - OTHER WAYS TO PLAY!

### CUBE CHALLENGE

Try replacing the Scrambler with a Rubik's cube showing a random arrangement of colours (no more than four of each colour on the sides facing the players). Each player must copy the pattern on the side facing him or her.

**PLAYER A**  
copies  
this side.

**PLAYER B**  
copies  
this side.

### RELAY RACE

Using all 24 tiles, start with a random arrangement and race your way through these four patterns in sequence.

### PREPARE TO PLAY

Move the hinged frame to the upright position as shown. Place four tiles of each colour in the trays on either side. There should be a total of 24 tiles and one empty space in each tray.

## HOW TO PLAY...

### 1 SHAKE THE SCRAMBLER

Place your hand over the Scrambler and give it a good shake to mix up the cubes. Keeping the Scrambler covered by your hand, shake it from side to side to settle the cubes into place.

### 2 REVEAL THE PATTERN

The person who has shaken the Scrambler removes his or her hand to reveal the pattern and the race begins.

### 3 START SLIDING

Players slide their tiles until the nine in the centre of their trays match those in the Scrambler. The border row of tiles around the central pattern does not count in this game. Each player must copy the pattern as seen from his or her position, not sideways or upside-down.

The first player to match the pattern slams down the frame and wins that round.

**THE WINNING PLAYER SHAKES THE SCRAMBLER TO START THE NEXT RACE.**

**NOTE:** If more than 4 squares of the same colour appear in the scrambler, just shake it again to create a new pattern.
