AUTO BINEO

A game of spying fun for 1-3 players aged 6 years and up!

A journey by car or train can seem endless and can quickly become boring! *Car Bingo* helps time pass quickly. While they are trying to find the pictures shown on the bingo cards, the players forget how long they have been travelling.

Instead of numbers, they look for pictures which can be found in the countryside they are travelling through. As soon as a player has five pictures in a row he calls **BINGO** and wins the game.

Contents:

- 3 pens
- 6 washable playing cards (wipe clean with a cloth)
- 1 set of playing instructions

Aim of the game:

The first player to cross out 5 pictures in a horizontal, vertical or diagonal row is the winner of the round.

How to play:

The Bingo cards are divided into four different categories: "In the mountains", "At the sea", "In the city" and "In the country". Before you start, you should choose which Bingo cards match the countryside you are travelling through. Each player gets the same card and a pen.

The game can begin. The players all try simultaneously to find one of the pictures in the surrounding countryside. If a player finds it, he calls out the name and points to where he has discovered the picture motif.

If the "travel group" agrees, the discoverer may cross out the corresponding square on his Bingo card. Then the search continues until the next motif is found. Play continues until a player has completed a horizontal, vertical or diagonal row of pictures. Now all the player has to do is call "BINGO" out loud and he is the winner.

Immediately after the game, the crosses on the Bingo cards are wiped off with a cloth so that the cards can be used for the next round of *Car Bingo*.

Single player: This game can also be played on your own. The aim is then to cross out a complete row of pictures before the journey is over. And it is a good exercise to train the powers of observation as well.

Special rules:

- If several objects are visible at the same time, the player who saw it first may cross it out on his card (e.g. pylons, birds, etc.)
- Pictures on signs or placards may be used.
- If a motif is discovered by several players at the same time, all players may cross it out on their cards.

Caution: Please do not put the pens in your mouth.
